

SSW3, Interface converter cable (RS232/TTY)

5 m

- Every programming software on a PC
- Online coupling with the AD with data exchange
- Visualization and coupling software

The RS232/TTY converter is completely integrated into the 15-pin connector housing, an external power supply is therefore not required. The transmission of data signals takes place over an RS232 connection.

The cable is 5 m long.

Technical specifications

General information	
Order number	700-750-0AA13
Article name	Interface converter cable (RS232/TTY), 5 m
Scope of delivery	Interface converter cable (RS232/TTY)
Tapping of the supply voltage	AG-side
RS232 interface	
Number	1
Type	RS232
Transmission rate	38400 Bit/s
Protocol	transparent
Connection	Connector, SUB-D, 9-pin
TTY interface	
Number	1
Type	TTY
Transmission rate	38400 Bit/s
Protocol	transparent
Connection	Connector, SUB-D, 15-pin
Cable length	5 m
Ambient conditions	
Pollution degree	2
Protection rating	IP20
Certifications	CE
CE	
RoHS	Yes
REACH	Yes
